

Hot Buffet Menu

Our Hot Buffet Menu provides a variety of dishes to suit everyone; you and your guests will have the option on the day to try one or more of the main dishes, sides and desserts.

Everything is prepared fresh and served hot to your guests from a designated serving station at a time of your choosing.

The price shown is per guest and includes each dish listed below, all equipment, cutlery and crockery and staffing on the day.

If you would like a bespoke menu, our Chefs can work with you to create what you want and discuss budgets accordingly. We can also cater for all dietary requirements and provide alternative menus. On the day our staff will have full knowledge of the ingredients and allergens in each dish, should any of your guests require assistance.

Please note that dishes may vary and be substituted for alternatives of equal quality due to availability. In this instance prior notice will always be provided.
